BVAC's Bloody Halloween

We had an awesome turnout with all the little goblins and ghouls who came to show off their costumes!

Candy was handed out, and our BOO! BOO! kits were a big hit. The building looked spooky, but luckily, the giant spider didn't eat anyone!

CPR Instructor Course

This class was a huge success! Bob did a fantastic job guiding the new students on their path to becoming CPR instructors.

Their enthusiasm for learning and giving back to the community by teaching such a vital skill is truly inspiring!
